	Seg Height	OC from Bottom	Special BC	Special Thickness			
Right	18		###.#				
Left	18		###.#				
	Prism	Dir	Angle	Prism2	Dir	Slab-Off Diopters	Base
Right	###.##					###.##	
Left	###.##					###.##	

LENS SECTION

1. Choose desired lens design from the Style drop down.
2. Select desired material/index from the Material drop down.
3. Select "CLEAR HARDCOAT" or any of the available enhanced options from the Color drop down.
4. Optional: Select any desired coatings, tinting, or AR from respective drop downs. Note: If selecting AR, adding UV coating from Coating drop down is not necessary as UV protection is built in to the AR
5. Select any desired extra options from the Extras drop down.

Lens			
Clear	Style	Material	Color
Both	RO DIGITAL	1.49 CR-39	CLEAR HARDCOAT
Coating	Choose...		
Tinting	Choose...		
AR	VCD PRIME A/R (N/C)		
Extras	Choose...	Choose...	Choose...

FINISHING UP

1. Optional: Enter Position of Wear measurements if desired for any of the customizable progressive lens options, such as RO Versatile
2. Enter any necessary special instructions and click "Submit".

Free Form Position of Wear							
Face Form Angle	Pantoscopic Angle	Object Distance	Vertex Refracted	Vertex Fitted	Eye Level	Inset	Eye Center-of-Rotation Distance
